

TECH COUNCIL

A platform for doubts and discussion of anything
and everything tech-related

TECH COUNCIL

PURPOSE

Tech related information is very spread out on the Internet and sometimes it can be tough to figure out where to look for what you seek. Tech Council aims to condense and organize the information in one platform

INTERACTION

Users are responsible for the increase in quantity and quality of information found on the platform. More interaction means finding better solutions. Tech Council is also an opportunity to interface with people with similar interests and conversation topics.

EASE OF USE

Tech Council has a simple, minimalistic, responsive and clear cut design that allows new users to quickly adapt to using and navigating in the platform.

CORE FUNCTIONALITIES

ASK QUESTIONS

Asking a question starts a thread on a tech-related topic that a user sees fit, according to the available categories on the website.

INTERACT

Question threads are the main location where interaction takes place. A user can input answers to the question, votes and comments on both questions and answers.

TAGS

A tag represents a topic of tech related information. A user can navigate to the page of a tag to see questions in that category and follow it.

SEARCH

The search engine allows the user to search for questions, tags and users containing the provided keyword(s)

FILTER CONTENT

Filters make it easier for the user to find what they're looking for. Our platform has filters for questions, tags and users in locations like the main page, search results page and user area.

HISTORY

User history is a good way to keep track of your activity on the website. A user can find their saved questions, the questions they asked, and their answers.
